The art of opening

VALENTI

The art of opening

Since 1963 Valenti has been present with its products on the European and non-European market.

Thanks to the long experience in metal-working Valenti has been able to develop its research in different directions, establishing internal departments which are concerned with the working out of functional accessories and articles for interior decoration.

The constant sharing of ideas and trends with customers stirs Valenti to search for new forms and expressions in the field of furnishing.

Its planning potential, let us mention as a reference the participation to the project "DAC Design for Arts and Crafts" realized by the consortium Poli Design of The Polytechnic in Milan and Confartigianato of Brescia, makes our Company flexible, dynamic and oriented towards new design trends, in the business policy of great attention to functionality which characterizes us.

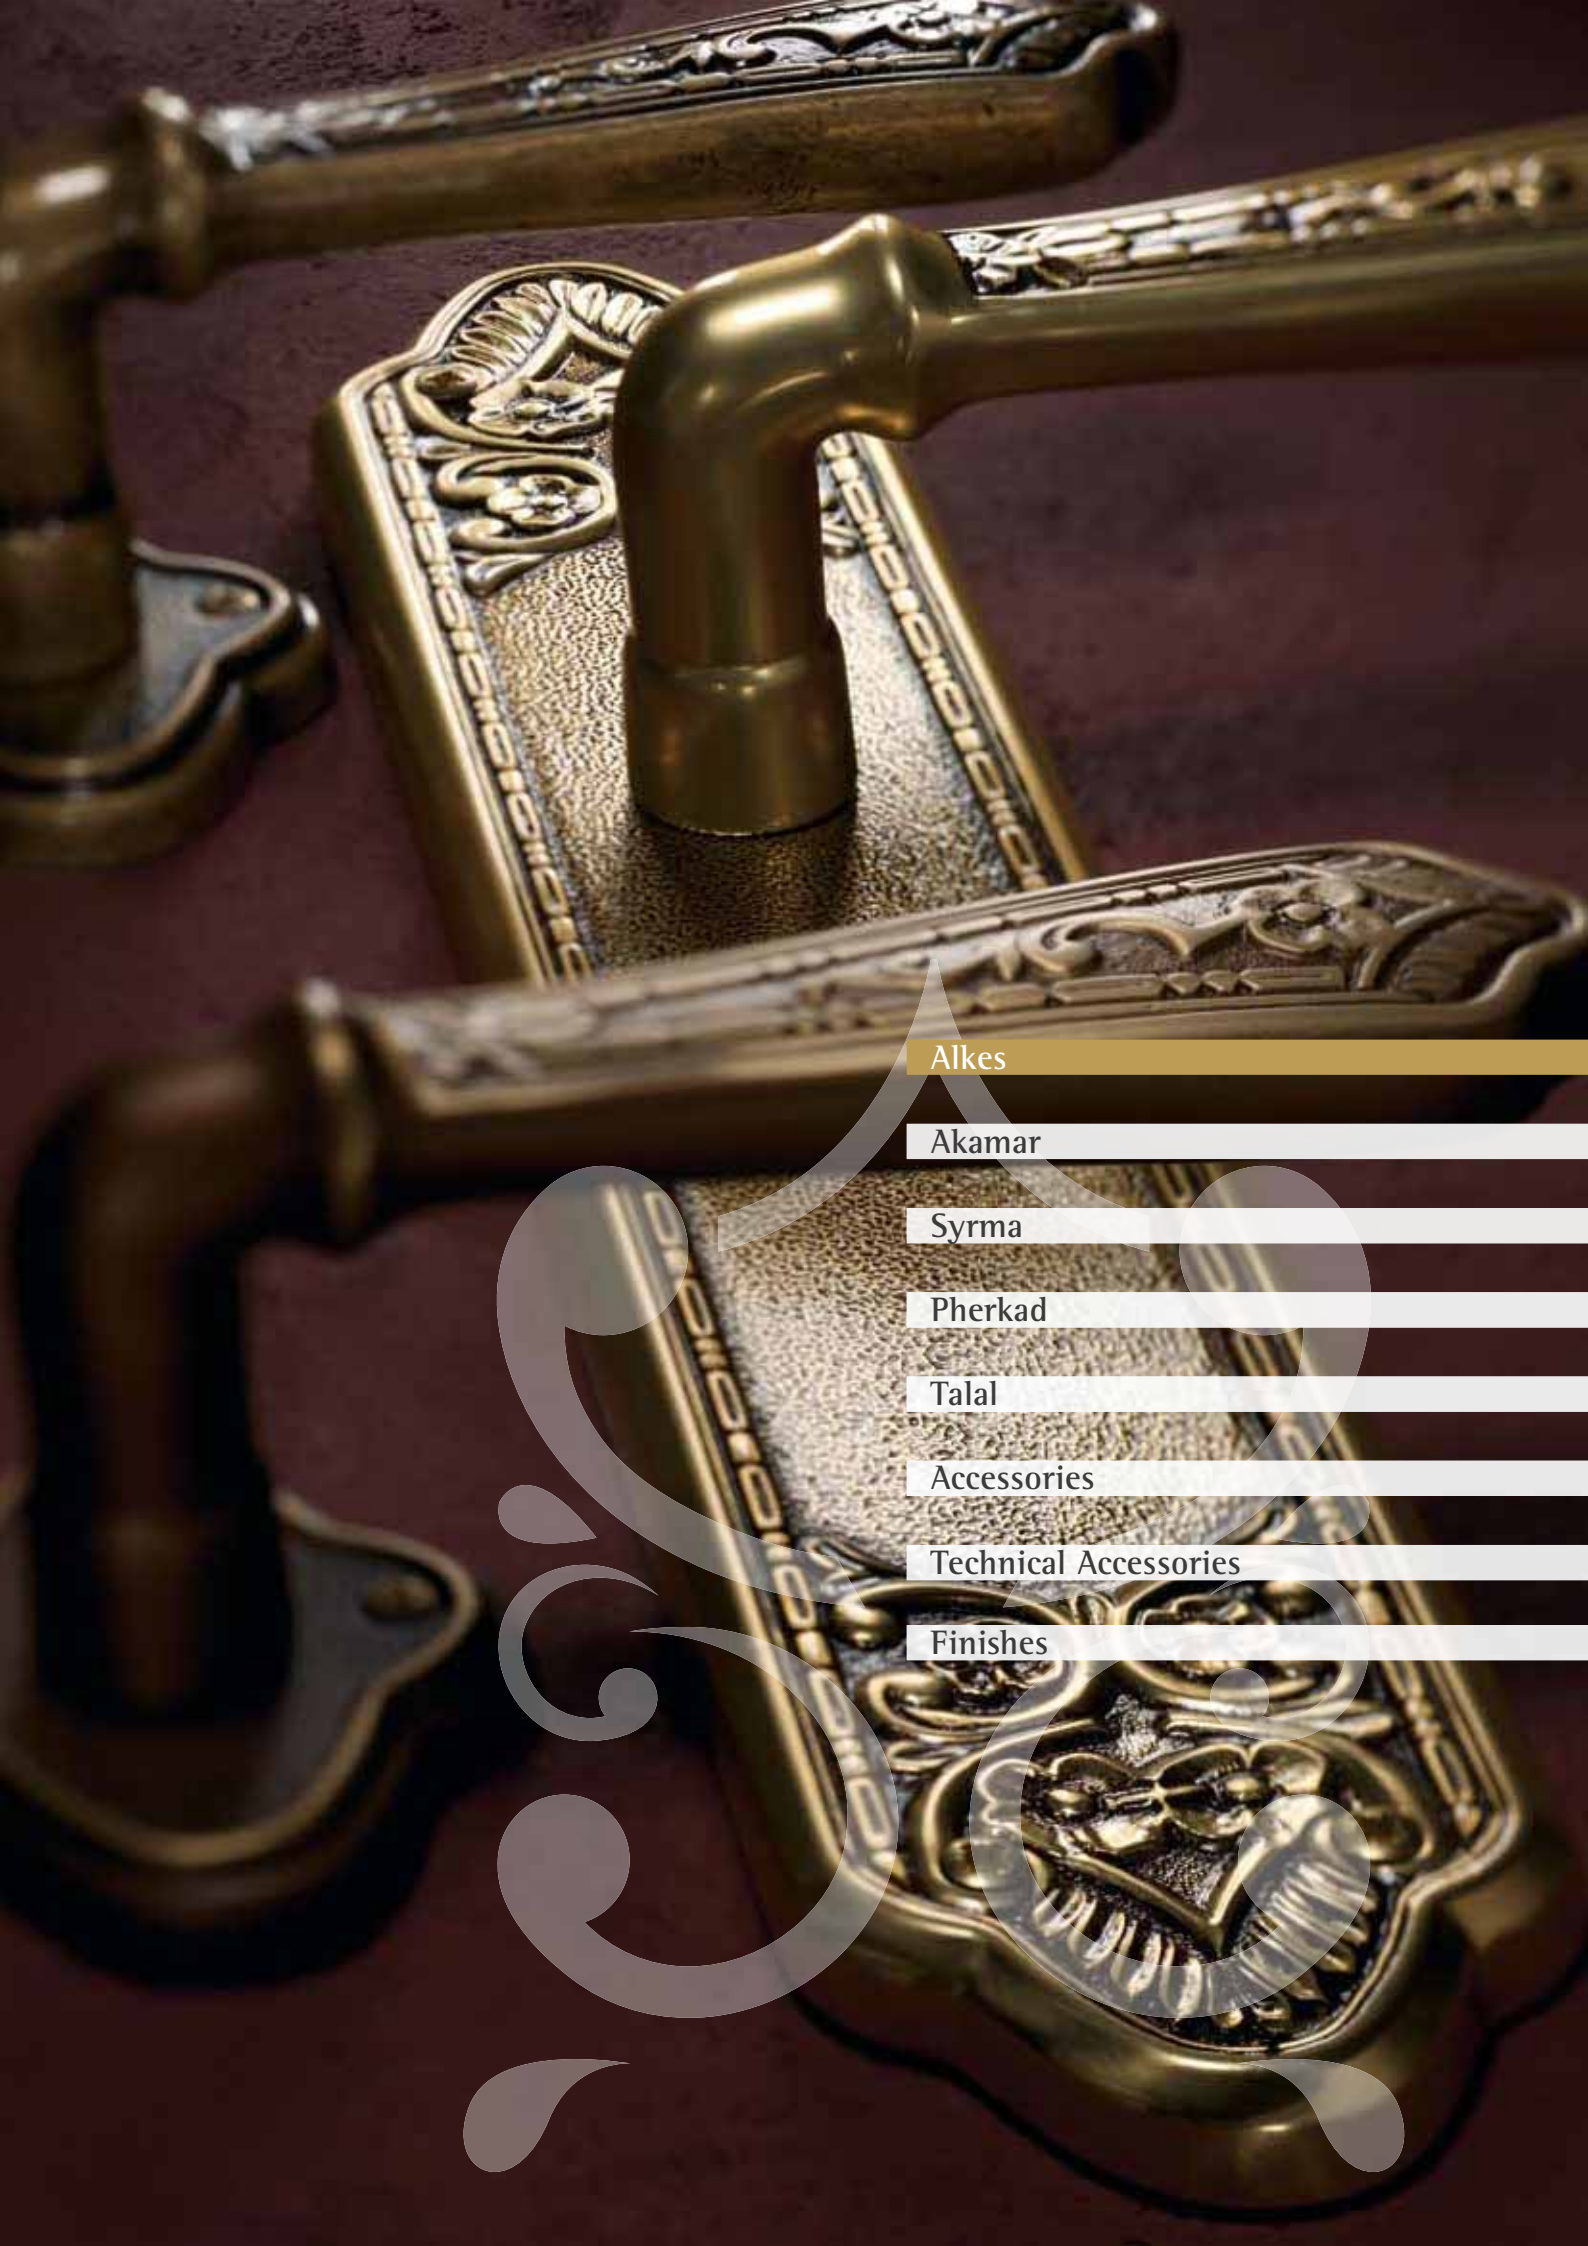

The technical equipment of the Company allows us, with an excellent quality/price ratio, to constantly keep the production cycle as well as evolution of products under control.

Dal 1963 la Valenti è presente con i propri prodotti sul mercato europeo ed extra europeo.

Grazie alla lunga esperienza nella lavorazione dei metalli Valenti ha potuto approfondire la propria ricerca in diverse direzioni, creando al suo interno delle 'divisioni', che si occupano dello sviluppo di accessori funzionali e coordinati per la decorazione d'interni. La condivisione con i clienti delle linee di sviluppo spinge alla costante ricerca di forme ed espressioni nuove nel campo dell'arredo.

Le potenzialità progettuali, non ultima la partecipazione al progetto DAC Design for Arts and Crafts realizzato dal consorzio Poli Design del Politecnico di Milano e Confartigianato di Brescia, rendono la nostra azienda flessibile, dinamica e orientata verso le nuove tendenze del design, nella politica aziendale di attenzione alla funzionalità che ci caratterizza.

Gli impianti di cui dispone l'azienda consentono, con un ottimo rapporto qualità-prezzo, di tenere costantemente sotto controllo il ciclo produttivo nella realizzazione dei prodotti e nella loro evoluzione.

The art of opening

Since 1963 Valenti has been present with its products on the European and non-European market.

Thanks to the long experience in metal-working Valenti has been able to develop its research in different directions, establishing internal departments which are concerned with the working out of functional accessories and articles for interior decoration.

The constant sharing of ideas and trends with customers stirs Valenti to search for new forms and expressions in the field of furnishing.

Its planning potential, let us mention as a reference the participation to the project "DAC Design for Arts and Crafts" realized by the consortium Poli Design of The Polytechnic in Milan and Confartigianato of Brescia, makes our Company flexible, dynamic and oriented towards new design trends, in the business policy of great attention to functionality which characterizes us.

The technical equipment of the Company allows us, with an excellent quality-price ratio, to constantly keep the production cycle as well as evolution of products under control.

Dal 1963 la Valenti è presente con i propri prodotti sul mercato europeo ed extra europeo.

Grazie alla lunga esperienza nella lavorazione dei metalli Valenti ha potuto approfondire la propria ricerca in diverse direzioni, creando al suo interno delle "divisioni", che si occupano dello sviluppo di accessori funzionali e coordinati per la decorazione d'interni.

La condivisione con i clienti delle linee di sviluppo spinge alla costante ricerca di forme ed espressioni nuove nel campo dell'arredo.

Le potenzialità progettuali, non ultima la partecipazione al progetto DAC Design for Arts and Crafts realizzato dal consorzio Poli Design del Politecnico di Milano e Confartigianato di Brescia, rendono la nostra azienda flessibile, dinamica e orientata verso le nuove tendenze del design, nella politica aziendale di attenzione alla funzionalità che ci caratterizza.

Gli impianti di cui dispone l'azienda consentono, con un ottimo rapporto qualità-prezzo, di tenere costantemente sotto controllo il ciclo produttivo nella realizzazione dei prodotti e nella loro evoluzione.

Made in Italy

We, at Valenti, certify with our complete and utmost corporate integrity that this article is produced solely within our Italian manufacturing facilities.

Each piece of hardware, forged or cast is hand-crafted to perfect the uniqueness in design and finish. The guarantee of originality is due to the fact that the finish of each product is slightly different than the previous item.

All articles are subject of a double protective coating treatment to guarantee the quality of finish.

In order to maintain the quality of the protective treatment and uniqueness of all finishes do not attempt to clean with detergents and/or chemicals. Hence, simply use a lightly water moistened cloth to clean the items.

Made in Italy

Si certifica che ogni articolo di questo catalogo è interamente prodotto in Italia nelle nostre aziende.

Ogni articolo, stampato o fuso e lavorato a mano è unico ed irripetibile e le piccole differenze cromatiche che possono riscontrarsi rappresentano la garanzia più certa dell'artigianalità del prodotto.

Ogni articolo è protetto da un doppio trattamento di superficie che ne garantisce la qualità nel tempo.

Si consiglia di pulire i prodotti utilizzando solamente un panno asciutto o leggermente inumidito con acqua. Non utilizzare assolutamente nessun detergente chimico per non alterare l'efficacia del trattamento superficiale.
